The Chip Shots Program is a fun, enjoyable program, designed to give golf instruction experience, for those who are interested in starting their kids in the game of golf! Chip Shots is intended to provide kids and adults with a basic understanding of golf fundamentals, in a safe and enjoyable environment.

Our professional golf staff will provide 45 minutes of instruction in a group setting, while parents help their child understand key points. Following the lesson will be a short course or on course play. Please note that a guardian must be at least 18 years old.

The instruction philosophy of teaching golf to juniors, in this age range, emphasizes having fun and teaching the parents how to encourage and reinforce their child's golf game. Information retention, as well as attention span at this age, is lower and the parent is the key to providing consistent reminders and guidance over specific skills, rules of play, and safety.
